CHICAGO Safety & Sustainability CONFERENCE

We are excited to announce the next Electric Association **"ChicaGO Safety & Sustainability Conference"** is **January 19, 2017** at the Donald E. Stephens Convention Center in Rosemont. Participation at this annual event has increased dramatically since its inception, attracting over 600 attendees earlier this year! Our committee has already met to begin planning our education curriculum and conference programs, and with the help of our industry partners (NECA, IBEW, NAED, IAEI, and others) we are off to a great start! With your sponsorship support, we can continue to increase the value of this growing annual conference.

Sponsorship Packages

Major Sponsorship: Our headlining sponsorship package **($5,000**) includes your company's logo on all printed materials and premiere signage at the event and in ElectriCITY magazine, as well as visual and verbal recognition at the conference. One exhibit space in the tradeshow is included, as well as 10 conference registration passes for your customers (over $1,500 value). All major sponsors will receive a complimentary advertisement on the EA homepage (over 20,000 hits per month) during the month leading up to the conference, as well as recognition on the conference webpage and on the Electric Association's LinkedIn and Facebook pages. *This sponsorship package may be shared between two companies, but size restrictions limit us to only one homepage Ad per $5000 contribution.* **Major Sponsors also receive discounted registration coupons to give to all their customers - saving them money off their conference registration fee. Major sponsors will have the opportunity to have a second exhibit in the main foyer of the conference center. This gives vendors the opportunity to display non-traditional table top items such as large products / free standing booths / lighting, electric vehicles, etc.**

Education Sponsorship: This **($2,000)** sponsorship allows the Electric Association to offer scholarships for engineers/electricians/architects and others to attend the conference and gain important continuing education credits while they are unemployed or have a financial hardship. Education sponsors will receive recognition in ElectriCITY magazine, the Green Conference webpage, and on signage at the event.

PARKING Sponsorship (4 available): This **$1,500** sponsorship allows us to buy bulk parking passes that you can give out at the tradeshow. Your company will be recognized on event signage, in attendee correspondence, and attendees will have to visit your tradeshow exhibit in order to get a parking validation pass.

Food & Beverage Sponsorship: This **$1,000** sponsorship includes sponsorship signage in the tradeshow area at the event, your company logo on the drink tickets, and recognition in ElectriCITY magazine as well as the conference webpage.

Demonstrate your support of the electrical construction industry by sponsoring this important event.
Please contact the Electric Association to register today:
